## PPS-12 AT A GLANCE

Vin 230 V Vout 13V8 at 11 Amps continuous (15A fused) includes thermostatic fan and battery manager (in conjunction with a 12V battery this makes a 12V UPS). White plastic fittings on front panel suit common radio transceiver mounting cradles. Overall dimensions 190 mm x 190 mm x 70 mm.

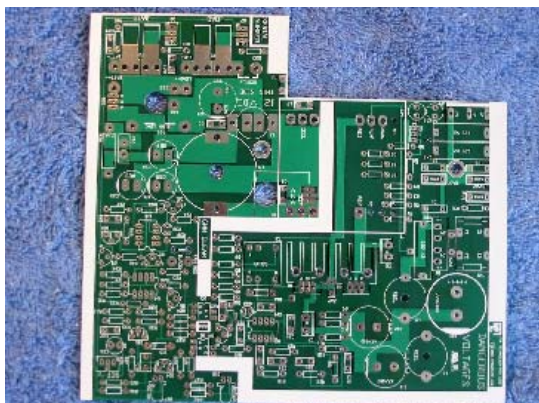

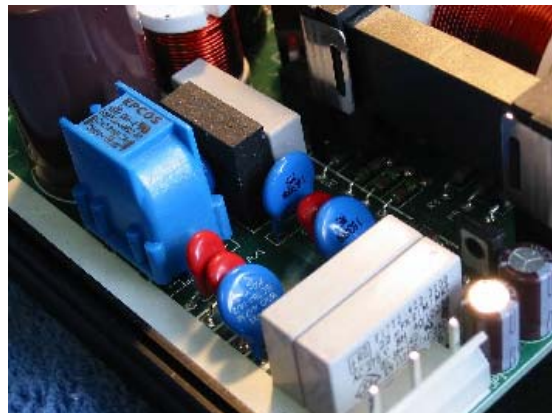

Internal view of 110V version without battery manager (as sold into USA)

Close up of RFI & Transient protection circuit

White lines on PCB indicate 6mm clearance between high and low voltage circuits (required for UL).
